Athletic Footwear (white soles preferred)
Clean Physical Education shorts, socks, sweat pants,
Shirt with sleeves, deodorant

Students are required to bring in money for review books that are used in preparation for the Regents Examinations. The student then owns the book and can work directly in the book. The district provides books that are the basis or supplement to the classroom curricular activities.

Many Math and Science classes require different calculators to satisfy New York State curricular needs. The calculators are listed on the supply sheet for each class. Usually one initial investment can satisfy a student’s calculator needs for their high school duration. Please attempt to think ahead when purchasing. If a student doesn’t have the needed calculator, one will be provided in class and may be used at school to complete required work.

The same calculator can be used for Math 7 & 8 as well as Science 8.

Algebra, Physics, Chemistry, Calculus, Geometry, and Algebra 2/Trigonometry all require a graphing calculator. The TI - 84 Graphing Calculator could be used in all of these classes.
